MIDAS Ireland 2020

About MIDAS Ireland

MIDAS Ireland is an industry led cluster consisting of industry, educational, research and government agencies, working together to assist in the development of the electronics based systems sector in Ireland. MIDAS began in 1999 as the Microelectronics Industry Design Association with a focus mainly on the design of advanced integrated circuits.

Today MIDAS represents the entire value chain, as the industry evolves to deliver more complete electronic and software system solutions. MIDAS is the key enabler of networking and collaborative opportunities within our industry and represents the needs of the sector to government. It supports the upskilling of graduate and professional engineers to meet the ever changing needs of this 'deep tech' sector.

MIDAS Activities

Member Meetings

MIDAS holds regular meetings for members across the country. Themes for these meetings have included: AI/Machine Learning, MedTech, STEM and Skills Needs for the industry.

Annual Conference and Gala Dinner

Our annual conference and gala dinner has become a popular fixture in the calendar for our industry in Ireland. The event is held in a different location around the country in the autumn.

The MIDAS Electronic Systems SkillNet is a collaboration by MIDAS members to deliver world-class training courses to upskill professionals in the electronics sector in Ireland.

Industry Achievement Awards

MIDAS recognises the achievements of individuals who have made major contributions to our industry in Ireland.

The courses include advanced technical training in Analog and Digital circuit design and verification. Professional development courses are also offered in areas such as project management, leadership, and effective work practices.

Sponsorships and Competitions

MIDAS promotes the industry in college and schools by providing sponsorships and holding competitions.

► Sponsorship of CANSAT Ireland for Secondary Schools

Government Liaison

MIDAS engages with Government and State Agencies to ensure that industry needs are met in critical areas such as skills development, resource and infrastructure.

For upcoming courses, please see: midasireland.ie/skillnet/

MIDAS Electronics Systems SkillNet is co-funded by Skillnet Ireland and member companies.

► MIDAS 3rd Level Project Competition

European Activities

MIDAS forges links with similar organisations across Europe and actively participates in European-wide industry initiatives.
